ASJ REALTY
WIRELESS ACCESS PROTECTION POLICY

=====

Document ID: POL-AC-017
Version: 1.0
Effective Date: May 20, 2026
Review Date: May 20, 2027
Owner: Sandra Okonkwo, IT Coordinator
Approved By: Anthony James, Principal Broker

=====

1. PURPOSE

This policy requires that wireless access at ASJ Realty is protected using strong authentication and encryption to prevent unauthorized access and eavesdropping.

2. ENCRYPTION REQUIREMENTS

- All corporate wireless networks must use WPA3-Enterprise or, at minimum, WPA2-Enterprise (AES/CCMP encryption)
- WEP, WPA (TKIP), and WPA2-Personal (PSK) are prohibited on any network that carries company or CUI data
- Guest networks may use WPA2-Personal with a minimum 16-character PSK rotated weekly

3. AUTHENTICATION REQUIREMENTS

- Corporate SSID: 802.1X authentication required (user credentials validated against Active Directory)
- Devices must present a valid machine certificate issued by the company CA (via Intune SCEP profile)
- MFA is required for initial device enrollment but not for each WiFi connection (certificate handles this)

4. PROHIBITED CONFIGURATIONS

- Open (unencrypted) WiFi: PROHIBITED
- WEP encryption: PROHIBITED
- Default router/AP credentials: PROHIBITED
- SSID broadcasting on IoT/management networks: PROHIBITED (SSIDs for management are hidden)

5. ACCESS POINT SECURITY

- All APs managed via Meraki cloud dashboard
- AP admin access restricted to Sandra Okonkwo
- Firmware auto-updated within 7 days of release
