

=====

ASJ REALTY GROUP
VULNERABILITY MANAGEMENT POLICY

=====

Document ID: POL-RA-002
Version: 1.1
Effective Date: January 15, 2026
Review Date: January 15, 2027
Owner: IT Director, Marcus Webb
Approved By: CEO, Sandra Joiner

=====

1. PURPOSE

This policy establishes requirements for identifying, assessing, and remediating security vulnerabilities in ASJ Realty Group systems to reduce risk to CUI and ensure compliance with federal contract requirements.

2. SCANNING REQUIREMENTS

2.1 Scheduled Scans

- Full authenticated vulnerability scan of all systems: MONTHLY (every first Monday of the month)
- Web application scan of client-facing portal: QUARTERLY
- Emergency scan: within 48 hours of any critical CVE (CVSS score 9.0+) disclosed by CISA or vendor

2.2 Scan Coverage

All scans must include:

- All servers (on-premises and Azure-hosted)
- All workstations joined to the ASJREALTY.LOCAL domain
- Network devices (firewall, switches, access points)
- Microsoft 365 tenant security configuration

2.3 Scan Tool

Primary: Tenable.io (authenticated scans)

Secondary: Microsoft Defender Vulnerability Management

3. REMEDIATION TIMELINES

CRITICAL (CVSS 9.0-10.0): Remediate within 15 days

HIGH (CVSS 7.0-8.9): Remediate within 30 days

MEDIUM (CVSS 4.0-6.9): Remediate within 90 days

LOW (CVSS 0.1-3.9): Remediate within 180 days or accept risk with documentation

4. RISK ACCEPTANCE

Vulnerabilities that cannot be remediated within required timelines require:

- Written risk acceptance signed by CEO
- Compensating controls documented
- Re-assessed at next scheduled scan

5. SCAN REPORTS

- Scan reports reviewed by Marcus Webb within 3 business days of each scan
- Monthly vulnerability summary provided to Sandra Joiner
- Critical findings escalated immediately

6. RESPONSIBILITIES

- IT Director: Execute scans, track remediation
- All IT staff: Apply patches within assigned timelines

- CEO: Approve risk acceptances
