=====

1. PURPOSE

This policy establishes requirements for developing and implementing Plans of Action and Milestones (POA&M) to correct deficiencies in security controls and reduce or eliminate vulnerabilities.

2. POA&M REQUIREMENT

A POA&M must be created for every security control deficiency identified through:

- Annual security control assessments
- Vulnerability scans
- Incident investigations
- Audits or inspections

3. POA&M CONTENTS

Each POA&M item must include:

- a) Control reference (e.g., 3.1.1, 3.5.3)
- b) Weakness or deficiency description
- c) Current risk level (Critical/High/Medium/Low)
- d) Planned mitigation/corrective action
- e) Assigned owner
- f) Target completion date
- g) Resources required (budget, staff)
- h) Milestone schedule (intermediate steps for multi-month items)
- i) Current status (Open / In Progress / Closed)

4. POA&M REVIEW

- Sandra Okonkwo reviews open POA&M items monthly
- Anthony James reviews the POA&M quarterly
- All POA&M items must have a target date no more than 12 months after identification (critical: 30 days)
- Closed items are retained with evidence of completion

5. STORAGE
