INCIDENTS REQUIRING INVESTIGATION

-----

Incident #1 (July 3, 2026)

Rule: Brute Force - Azure AD

Details: 8 failed logon attempts for dcollins@asjrealty.com from IP 45.227.x.x (external - Singapore) over 5 minutes. No successful logon.

Response (Sandra, same day):

- IP blocked in Conditional Access Named Locations
- dcollins confirmed: did not attempt logon (travel to SG: NO)
- Password reset forced for dcollins as precaution
- MFA reviewed: confirmed active and no new MFA methods added

Result: No compromise. Account not breached. Closed 07/03/2026.

Incident #2 (July 19, 2026)

Rule: Suspicious PowerShell Execution

Details: PowerShell launched by sokonkwo on ASJ-WS-001 with encoded command parameter.

Response: Sandra confirmed it was her own script for Intune health check. Script reviewed - legitimate.

Result: False positive. Closed 07/19/2026.

DEFENDER EDR - ATTACK SURFACE REDUCTION (July 2026)

-----

ASR Rules active: 15 rules (all in Block mode)

ASR blocks this month: 3

- 1x Malicious script blocked (encoded PS1 from email)
- 2x Office macro blocked (untrusted publisher)

No full attack chains detected.

AZURE AD IDENTITY PROTECTION

-----

Risky sign-ins flagged: 2

Both investigated and confirmed legitimate (travel).

No confirmed compromised accounts.
