ASJ REALTY
USER AUTHENTICATION POLICY

=====

Document ID: POL-IA-002
Version: 1.1
Effective Date: May 1, 2026
Review Date: May 1, 2027
Owner: Sandra Okonkwo, IT Coordinator
Approved By: Anthony James, Principal Broker

=====

1. PURPOSE

This policy establishes authentication requirements for verifying the identity of users, processes, and devices before granting access to ASJ Realty systems.

2. AUTHENTICATION METHODS

2.1 Standard Users - Azure AD / M365

- Username + password (complexity per POL-IA-003)
- Multi-factor authentication (MFA) required for all users (Microsoft Authenticator app - push notification)
- Passwordless authentication: enabled as option (FIDO2 key or Authenticator app number matching)

2.2 Workstation Local Logon

- Domain credentials required (Kerberos authentication)
- BitLocker PIN required at pre-boot (for laptops)

2.3 VPN

- Azure AD SAML authentication (username + MFA)
- Machine certificate verification (device must be enrolled)

2.4 Processes / Service Accounts

- Service accounts authenticate using managed service account credentials (gMSA) where supported, or strong passwords stored in Azure Key Vault

3. PASSWORD REQUIREMENTS

- Minimum 12 characters
- Complexity: uppercase, lowercase, number, special character
- Password expiration: 365 days
- History: last 12 passwords prohibited

4. FAILED AUTHENTICATION

- After 5 failed attempts: account locked 30 minutes
- Anomalous authentication patterns generate SIEM alerts
