ASJ REALTY
SYSTEM MAINTENANCE POLICY

=====

Document ID: POL-MA-001
Version: 1.0
Effective Date: June 15, 2026
Review Date: June 15, 2027
Owner: Sandra Okonkwo, IT Coordinator
Approved By: Anthony James, Principal Broker

=====

1. PURPOSE

This policy establishes requirements for performing maintenance on ASJ Realty information systems in a controlled manner.

2. TYPES OF MAINTENANCE

2.1 Scheduled Maintenance

- Software patching: Second Tuesday of each month (Patch Tuesday)
Patches applied via Microsoft Intune/Windows Update for Business
- Hardware inspection: Quarterly (Sandra Okonkwo)
- Antivirus signature updates: Automatic (daily)
- Firmware updates: As released, within 30 days for critical patches and 90 days for non-critical

2.2 Unscheduled/Emergency Maintenance

- Emergency patches (zero-day or critical severity): within 72 hours
- Hardware failures: addressed within 24 hours for systems holding CUI

3. MAINTENANCE RECORDS

All maintenance activities are logged in the IT Maintenance Log (SharePoint: IT/Maintenance-Log.xlsx) including:

- Date and time
- Description of work performed
- Systems affected
- Personnel performing maintenance
- Outcome

4. PATCH MANAGEMENT

Patches are tested on a non-production device before broad deployment when possible. Emergency patches may be deployed directly to production with rollback plan documented.

5. VENDOR MAINTENANCE

Third-party maintenance visits require prior approval from Sandra Okonkwo and are escorted at all times.
