

■ ACCESS CONTROL POLICY

Organization: Blue Ridge Technology Solutions LLC

Control: 3.1.10 - Session Lock with Pattern-Hiding Display

Version: 1.2 | Effective: 2026-01-15

Owner: Nathan Cruz, IT Manager | Approved: Victor Osei, Director of Operations

1. PURPOSE

This policy requires Blue Ridge Technology Solutions LLC to employ session lock with pattern-hiding displays after a period of inactivity, per NIST SP 800-171 Rev. 2 control 3.1.10.

2. SCOPE

All Blue Ridge Technology Solutions LLC endpoints and remote sessions used to access CUI systems.

3. REQUIREMENTS

- a. Screen lock activates after 15 minutes of user inactivity.
- b. Screen lock uses a pattern-hiding screensaver (not a transparent or clear display).
- c. Password is required to unlock any locked session.
- d. Screen lock settings are enforced via Group Policy and Intune.
- e. Users may not configure screen lock settings beyond policy minimums.

4. RESPONSIBILITY

Nathan Cruz, IT Manager, configures and enforces screen lock via MDM and Group Policy.

5. ENFORCEMENT

Tampering with screen lock settings constitutes a policy violation.
