

■ACCESS CONTROL POLICY

Organization: Blue Ridge Technology Solutions LLC

Control: 3.1.15 - Remote Privileged Command Authorization

Version: 1.2 | Effective: 2026-01-15

Owner: Nathan Cruz, IT Manager | Approved: Victor Osei, Director of Operations

1. PURPOSE

This policy authorizes remote execution of privileged commands and security-relevant information access via remote access only for documented operational needs, per NIST SP 800-171 Rev. 2 control 3.1.15.

2. SCOPE

All Blue Ridge Technology Solutions LLC personnel who execute privileged administrative commands remotely.

3. REQUIREMENTS

- a. Remote privileged command execution requires a documented service ticket or change request.
- b. All remote privileged sessions are recorded and reviewed.
- c. Victor Osei authorizes remote privileged access requests in advance.
- d. Emergency remote privileged access requires after-action documentation within 24 hours.
- e. Remote privileged access is audited monthly by Nathan Cruz.

4. RESPONSIBILITY

Nathan Cruz, IT Manager, executes privileged commands remotely only under documented authorization.

5. ENFORCEMENT

Unauthorized remote privileged command execution is an immediate security incident.
