

## ■ACCESS CONTROL POLICY

Organization: Blue Ridge Technology Solutions LLC

Control: 3.1.17 - Wireless Access Authentication and Encryption

Version: 1.2 | Effective: 2026-01-15

Owner: Nathan Cruz, IT Manager | Approved: Victor Osei, Director of Operations

### 1. PURPOSE

This policy requires Blue Ridge Technology Solutions LLC to protect wireless access using authentication and encryption, per NIST SP 800-171 Rev. 2 control 3.1.17.

### 2. SCOPE

All Blue Ridge Technology Solutions LLC wireless networks that support access to CUI systems.

### 3. REQUIREMENTS

- a. CUI wireless networks use WPA3-Enterprise (WPA2-Enterprise minimum) with 802.1X.
- b. Encryption uses AES-CCMP (128-bit minimum).
- c. WEP and TKIP are prohibited.
- d. Wireless authentication certificates are issued by the Blue Ridge Technology Solutions LLC internal PKI.
- e. Nathan Cruz reviews wireless encryption configurations quarterly.

### 4. RESPONSIBILITY

Nathan Cruz, IT Manager, configures and maintains wireless encryption and authentication.

### 5. ENFORCEMENT

Any wireless network in violation of these standards must be taken offline immediately.
