BLUE RIDGE TECHNOLOGY SOLUTIONS LLC  
NON-PRIVILEGED ACCOUNT USE POLICY

=====

Document ID: POL-AC-006  
Version: 1.1  
Effective Date: April 1, 2026  
Review Date: April 1, 2027  
Owner: Nathan Cruz, Lead Systems Engineer  
Approved By: Victor Osei, President

=====

## 1. PURPOSE

This policy requires that users employ non-privileged accounts for routine daily activities, reserving privileged accounts solely for tasks that require elevated permissions.

## 2. REQUIREMENTS

### 2.1 Separate Account Structure

All IT staff at Blue Ridge Technology Solutions who require administrative access must maintain TWO accounts:

- a) Standard User Account: used for all daily tasks (email, browsing, documentation, client communications)
- b) Admin Account: used ONLY for administrative tasks (prefixed with "adm\_", e.g., adm\_ncruz)

### 2.2 Daily Work – Standard Accounts Required

The following tasks MUST be performed using standard accounts:

- Email and calendar
- Web browsing
- Office document creation
- Client portal access
- Ticket system updates
- Video conferencing

### 2.3 Admin Accounts – Restricted Use

Admin accounts are used ONLY for:

- Domain controller management
- Server configuration changes
- User account administration
- Security policy changes
- Software deployment via Intune

### 2.4 No Browser / Email on Admin Accounts

Admin accounts must NOT be used for:

- Web browsing (no browser access)
- Email
- Accessing internet-connected services

This prevents credential exposure and privilege escalation.

## 3. TECHNICAL ENFORCEMENT

Admin accounts have "Log on locally" restricted to servers and admin workstations only. Browser shortcuts are removed from admin-account desktops. Conditional Access blocks admin accounts from accessing M365 email and SharePoint.
