

■SYSTEM AND COMMUNICATIONS PROTECTION POLICY

Organization: Blue Ridge Technology Solutions LLC

Control: 3.13.6 - Default-Deny Network Communications

Version: 1.2 | Effective: 2026-01-15

Owner: Nathan Cruz, IT Manager | Approved: Victor Osei, Director of Operations

1. PURPOSE

This policy requires Blue Ridge Technology Solutions LLC to deny network communications traffic by default and allow only by exception, per NIST SP 800-171 Rev. 2 control 3.13.6.

2. SCOPE

All Blue Ridge Technology Solutions LLC firewall and network access control configurations.

3. REQUIREMENTS

- a. All firewall and network ACL default rules are DENY ALL.
- b. Specific allow rules must be documented and approved before implementation.
- c. Allow exceptions are reviewed quarterly and removed when no longer needed.
- d. Nathan Cruz can demonstrate default-deny posture through firewall rule listing.
- e. Any traffic not matching an explicit allow rule is blocked and logged.

4. RESPONSIBILITY

Nathan Cruz, IT Manager, configures and maintains default-deny network posture.

5. ENFORCEMENT

Any firewall configuration allowing traffic by default is a critical finding.
