BLUE RIDGE TECHNOLOGY SOLUTIONS LLC
NETWORK SESSION TERMINATION POLICY

=====

Document ID: POL-SC-009
Version: 1.0
Effective Date: June 10, 2026
Review Date: June 10, 2027
Owner: Nathan Cruz, Lead Systems Engineer
Approved By: Victor Osei, President

=====

1. PURPOSE

This policy requires that network connections associated with communications sessions are terminated after a defined period of inactivity to reduce the risk of session hijacking.

2. SESSION TERMINATION SETTINGS

2.1 VPN Sessions

Idle timeout: 60 minutes (connection dropped if no traffic)
Max session time: 480 minutes (8 hours max, then re-auth)

2.2 RDP / Remote Desktop

Idle disconnect: 30 minutes (GPO setting)
Session limit: 4 hours (GPO setting)

2.3 Web Application Sessions (M365 / Azure AD)

Sign-in frequency: 8 hours (Conditional Access)
Persistent browser sessions: NOT allowed for CUI apps
(users must re-authenticate after 8 hours or browser restart)

2.4 SSH Connections (Servers)

SSH idle timeout: 10 minutes
Config: ClientAliveInterval 300 / ClientAliveCountMax 2
(after 2 missed keepalives = 10 min, connection drops)

2.5 TCP Connection Timeouts (Firewall)

Meraki MX: stateful TCP timeout = 3600 seconds (1 hour)
UDP flow timeout = 300 seconds (5 minutes)
Idle connections removed from state table after timeout

3. EXCEPTION PROCESS

Any system requiring longer session timeouts must be approved by Nathan Cruz with documented business justification.
