BLUE RIDGE TECHNOLOGY SOLUTIONS LLC
MALWARE PROTECTION POLICY

=====

Document ID: POL-SI-002
Version: 1.3
Effective Date: June 1, 2026
Review Date: June 1, 2027
Owner: Nathan Cruz, Lead Systems Engineer
Approved By: Victor Osei, President

=====

1. PURPOSE

Blue Ridge Technology Solutions manages IT systems for federal defense contractor clients and processes CUI. This policy establishes requirements for protecting all company and client-managed systems from malware including viruses, ransomware, spyware, trojans, and other malicious software.

2. SCOPE

Applies to all servers, workstations, laptops, and virtual machines managed by Blue Ridge Technology Solutions, including those used to deliver managed services to clients.

3. ENDPOINT PROTECTION REQUIREMENTS

3.1 Required Software

All managed endpoints must run:

- Microsoft Defender for Endpoint (Plan 2) – required
 - Malwarebytes Premium – installed as secondary scanner
- No other endpoint protection software is approved without written authorization from Nathan Cruz.

3.2 Real-Time Protection

- Real-time protection must be ENABLED at all times
- Users are NOT permitted to disable or pause protection
- Tampering protection is enabled via Intune policy
- Any attempt to disable protection generates an alert

3.3 Signature Updates

- Defender signatures update automatically every 4 hours
- Machines offline for more than 24 hours receive priority signature push upon reconnection
- Defender version and signature date monitored via Intune compliance dashboard

3.4 Scheduled Scans

- Full system scan: Every Sunday at 2:00 AM
- Quick scan: Daily at 12:00 PM (noon)
- On-access scan: Real-time, for all file operations
- External media: Scanned automatically upon connection

3.5 Scan Coverage

All scans include:

- All local drives (C:\, D:\ etc.)
- Network drives mapped to the endpoint
- Removable media connected during scan window
- Downloaded files (real-time)
- Email attachments (via Defender for Office 365)

4. EMAIL PROTECTION

- Microsoft Defender for Office 365 (Plan 2) is enabled
- Safe Attachments: All attachments detonated in sandbox
- Safe Links: All URLs rewritten and checked at click time
- Anti-phishing policy: Enabled with impersonation protection

5. INCIDENT RESPONSE FOR MALWARE

Detected malware is automatically quarantined.

Nathan Cruz is alerted immediately via Defender portal.

Incident handled per POL-IR-001 (Incident Response Policy).

6. REPORTING

Monthly malware detection summary reviewed by Nathan Cruz
and reported to Victor Osei.
