BLUE RIDGE TECHNOLOGY SOLUTIONS LLC
AUDIT EVENT REVIEW AND UPDATE POLICY

=====

Document ID: POL-AU-003
Version: 1.0
Effective Date: April 25, 2026
Review Date: April 25, 2027
Owner: Nathan Cruz, Lead Systems Engineer
Approved By: Victor Osei, President

=====

1. PURPOSE

This policy establishes requirements for reviewing and updating the set of events logged by BRTS information systems to ensure appropriate audit coverage.

2. LOGGED EVENTS (CURRENT SET)

The following event categories are currently logged:

- Logon/logoff events (success and failure)
- Account management (create, modify, delete, lock)
- Privilege use (escalation, role activation)
- Object access (CUI files and folders)
- Policy changes (security policy modifications)
- System events (startup, shutdown, service start/stop)
- Process creation (Event ID 4688)
- Network connections to/from sensitive systems

3. REVIEW PROCESS

The logged event set is reviewed:

- a) Annually (each April, by Nathan Cruz)
- b) After any security incident
- c) After significant infrastructure changes
- d) When new systems are added to scope

4. UPDATE PROCEDURE

Changes to the logged event set require:

- Documentation in the Audit Configuration Change Log
- Approval from Victor Osei (for reductions to event set)
- No approval required for adding new event categories
- Changes implemented within 30 days of approval

5. SIEM COVERAGE

All logged events are forwarded to Microsoft Sentinel.
Any gap in log forwarding generates an alert.
