

■ AUDIT AND ACCOUNTABILITY IMPLEMENTATION EVIDENCE

Organization: Blue Ridge Technology Solutions LLC

Control: 3.3.6 - Audit Reduction and Report Generation

Prepared By: Nathan Cruz, IT Manager | Date: 2026-07-10

1. SUMMARY

Evidence that Blue Ridge Technology Solutions LLC provides audit reduction and report generation without altering original records.

2. AUDIT REDUCTION TOOLS

Platform: Microsoft Sentinel + Log Analytics (tenant: blueridgetech.com)

Capabilities:

- KQL (Kusto Query Language) for real-time log filtering and analysis
- Sentinel Workbooks for pre-built security dashboards
- Log Analytics query editor for ad-hoc investigation
- Export to CSV/Excel for offline analysis

Original records: Stored immutably in Log Analytics workspace. KQL queries operate on indexed copies and do not modify source records.

3. STANDARD REPORTS CONFIGURED

Workbook: "Blue Ridge Technology Solutions LLC Security Overview" (refreshed daily)

- Failed logins (last 7 days)
- File access by user
- Admin activity summary
- Alert trend

4. ON-DEMAND REPORT TEST

Date: 2026-06-25 | Requester: Victor Osei | Tester: Nathan Cruz

Request: "Show all CUI file access by n.cruz@blueridgetech.com in June 2026"

KQL executed: SecurityEvent + SharePoint logs joined on user

Report delivered: 12 minutes | Original logs: Unaltered (confirmed via log count)

5. CONCLUSION

Blue Ridge Technology Solutions LLC provides audit reduction and reporting via Sentinel without altering original records per control 3.3.6.
