

■AUDIT AND ACCOUNTABILITY POLICY

Organization: Blue Ridge Technology Solutions LLC

Control: 3.3.7 - System Clock Synchronization

Version: 1.2 | Effective: 2026-01-15

Owner: Nathan Cruz, IT Manager | Approved: Victor Osei, Director of Operations

1. PURPOSE

This policy requires Blue Ridge Technology Solutions LLC to provide a system capability that compares and synchronizes internal system clocks with an authoritative source, per NIST SP 800-171 Rev. 2 control 3.3.7.

2. SCOPE

All Blue Ridge Technology Solutions LLC information systems that generate audit records.

3. REQUIREMENTS

- a. All systems synchronize clocks with an authoritative NTP time source.
- b. NTP source: time.windows.com or NIST time servers (time.nist.gov).
- c. Maximum clock drift is 1 second from authoritative source.
- d. NTP configuration is enforced via Group Policy on Windows endpoints.
- e. Nathan Cruz verifies clock synchronization quarterly.

4. RESPONSIBILITY

Nathan Cruz, IT Manager, configures and verifies NTP synchronization on all systems.

5. ENFORCEMENT

Systems with clock drift exceeding 5 minutes are quarantined from CUI access.
