

■CONFIGURATION MANAGEMENT IMPLEMENTATION EVIDENCE

Organization: Blue Ridge Technology Solutions LLC

Control: 3.4.9 - User-Installed Software Control

Prepared By: Nathan Cruz, IT Manager | Date: 2026-07-10

1. SUMMARY

Evidence that Blue Ridge Technology Solutions LLC controls user-installed software on CUI endpoints.

2. STANDARD USER RIGHTS

Platform: Intune / Azure AD (tenant: blueridgetech.com)

Policy: All CUI endpoint users configured as Standard Users (no local admin rights)

Verified: n.cruz@blueridgetech.com on BRTS-WS-001 - Local admin: No

Software installation without admin rights: Blocked by Windows security architecture.

Intune: Company Portal app provides managed software deployment by Nathan Cruz.

3. MONTHLY SOFTWARE AUDIT REPORT

Tool: Intune - Discovered Apps Report

Date: 2026-07-01 | Auditor: Nathan Cruz

Endpoints Scanned: 4

Approved software found: 8 per device (as expected)

Unapproved software found: 0

Previous month violation (2026-06-01): Spotify installed via Microsoft Store by Staff-2

Action: Nathan Cruz removed via Intune remote uninstall. Microsoft Store access restricted.

4. SOFTWARE INVENTORY SNAPSHOT (2026-07-01)

App | Version | Publisher | Approved

Microsoft 365 Apps | 2402.17328 | Microsoft | Yes

Windows Defender | 4.18.24030 | Microsoft | Yes

GlobalProtect VPN | 6.2.1 | Palo Alto | Yes

Intune Management Extension | 1.43.203.0 | Microsoft | Yes

Adobe Acrobat Reader DC | 23.8.20555 | Adobe | Yes

5. CONCLUSION

Blue Ridge Technology Solutions LLC prevents user software installation via Standard User policy and conducts monthly audits per control 3.4.9.
