

■IDENTIFICATION AND AUTHENTICATION POLICY

Organization: Blue Ridge Technology Solutions LLC

Control: 3.5.2 - User Authentication

Version: 1.2 | Effective: 2026-01-15

Owner: Nathan Cruz, IT Manager | Approved: Victor Osei, Director of Operations

1. PURPOSE

This policy requires Blue Ridge Technology Solutions LLC to authenticate the identities of users, processes, and devices before granting access to CUI systems, per NIST SP 800-171 Rev. 2 control 3.5.2.

2. SCOPE

All access to Blue Ridge Technology Solutions LLC CUI systems and resources.

3. REQUIREMENTS

- a. All CUI system access requires successful authentication before access is granted.
- b. Authentication is enforced via Azure AD with MFA for all accounts.
- c. Passwords must meet complexity requirements as defined in policy 3.5.7.
- d. Device authentication uses certificate-based enrollment via Intune.
- e. Failed authentication attempts are logged and monitored.

4. RESPONSIBILITY

Nathan Cruz, IT Manager, configures and maintains authentication controls.

5. ENFORCEMENT

Unauthenticated access to CUI systems is technically blocked and generates security alerts.
