

■IDENTIFICATION AND AUTHENTICATION IMPLEMENTATION EVIDENCE

Organization: Blue Ridge Technology Solutions LLC

Control: 3.5.2 - User Authentication

Prepared By: Nathan Cruz, IT Manager | Date: 2026-07-10

1. SUMMARY

Evidence that Blue Ridge Technology Solutions LLC authenticates the identity of all users before granting CUI system access.

2. AUTHENTICATION CONFIGURATION

Platform: Azure Active Directory (tenant: blueridgetech.com)

Authentication Methods Enabled:

- Password (minimum 14 characters, complexity enforced)
- Microsoft Authenticator (TOTP/push notification)
- FIDO2 Security Key (optional - Nathan Cruz only)

MFA Required: Yes (Conditional Access policy: MFA-Required-All-Blue Ridge Technology Solutions LLC)

Applied to: All users accessing CUI resources (M365, SharePoint, VPN)

3. MFA ENROLLMENT STATUS (2026-07-01)

Total Users: 5 | MFA Enabled: 5 (100%)

User | MFA Method | Status

Victor Osei@blueridgetech.com | Authenticator App | Active

Nathan Cruz@blueridgetech.com | Authenticator App | Active

staff1@blueridgetech.com | Authenticator App | Active

staff2@blueridgetech.com | Authenticator App | Active

svc-backup@blueridgetech.com | Certificate (service) | Active

4. RECENT AUTHENTICATION LOG (sample - June 2026)

Date: 2026-06-15 | User: n.cruz@blueridgetech.com | Method: Password+MFA | Result: Success | Device: BRTS-WS-001

Date: 2026-06-15 | User: unknown | Method: Password | Result: Blocked | Reason: MFA not satisfied

5. CONCLUSION

Blue Ridge Technology Solutions LLC requires and verifies user authentication with MFA before granting CUI access per control 3.5.2.
