

■IDENTIFICATION AND AUTHENTICATION IMPLEMENTATION EVIDENCE

Organization: Blue Ridge Technology Solutions LLC

Control: 3.5.5 - MFA for Privileged Accounts

Prepared By: Nathan Cruz, IT Manager | Date: 2026-07-10

1. SUMMARY

Evidence that Blue Ridge Technology Solutions LLC requires MFA for all privileged account network access.

2. PRIVILEGED ACCOUNT MFA CONFIGURATION

Tenant: blueridgetech.com

Privileged Roles in Scope: Global Admin, SharePoint Admin, Security Admin, Intune Admin

Conditional Access Policy: MFA-Privileged-Accounts-Blue Ridge Technology Solutions LLC

- Target: Users with Global Admin or Security Admin role
- Condition: Any location, any device, any app
- Grant Control: Require MFA + Compliant Device
- Session: Sign-in frequency every 1 hour (no persistent sessions)

Azure AD PIM:

- All privileged roles are eligible (not permanently active)
- Activation requires: MFA verification + business justification
- Max activation: 8 hours

3. PIM ACTIVATION LOG (June 2026)

Date | User | Role | MFA Used | Duration | Justification

2026-06-05 | Nathan Cruz | Global Admin | Yes | 2h | Intune policy update

2026-06-12 | Nathan Cruz | Security Admin | Yes | 1h | Sentinel rule update

2026-06-20 | Nathan Cruz | Global Admin | Yes | 45m | User account change

MFA failures on privileged accounts: 0

4. CONCLUSION

Blue Ridge Technology Solutions LLC enforces MFA on all privileged account activations and network access via PIM and Conditional Access per control 3.5.5.
