BLUE RIDGE TECHNOLOGY SOLUTIONS LLC
PASSWORD HISTORY AND REUSE POLICY

=====

Document ID: POL-IA-008
Version: 1.0
Effective Date: April 1, 2026
Review Date: April 1, 2027
Owner: Nathan Cruz, Lead Systems Engineer
Approved By: Victor Osei, President

=====

1. PURPOSE

This policy prohibits the reuse of previous passwords to ensure that users cannot cycle back to compromised credentials.

2. PASSWORD HISTORY REQUIREMENTS

2.1 Active Directory Domain Accounts

- Password history enforced: last 12 passwords
- Users cannot reuse any of their previous 12 passwords
- Enforced via Active Directory Fine-Grained Password Policy and Default Domain Policy

2.2 Azure AD / Microsoft 365

- Azure AD enforces 12-password history for cloud-only accounts (Password Hash Sync users inherit AD policy)
- Password protection enabled: blocks common passwords and BRTS-specific banned terms

2.3 Local Accounts

- Local administrator accounts also subject to 12-password history (enforced via GPO)
- LAPS (Local Administrator Password Solution) manages local admin passwords automatically with unique, rotating values

3. PASSWORD CHANGE INTERVAL

- Minimum password age: 1 day (prevents rapid cycling)
- Maximum password age: 365 days
- Users are prompted to change password 14 days before expiry

4. MONITORING

Nathan Cruz confirms password history settings quarterly using Get-ADDefaultDomainPasswordPolicy and LAPS reports.
