

■MAINTENANCE POLICY

Organization: Blue Ridge Technology Solutions LLC

Control: 3.7.4 - Diagnostic Media Inspection

Version: 1.2 | Effective: 2026-01-15

Owner: Nathan Cruz, IT Manager | Approved: Victor Osei, Director of Operations

1. PURPOSE

This policy requires Blue Ridge Technology Solutions LLC to check media containing diagnostic programs for malicious code before use, per NIST SP 800-171 Rev. 2 control 3.7.4.

2. SCOPE

All portable media (USB drives, DVDs, external drives) used for maintenance or diagnostics on Blue Ridge Technology Solutions LLC CUI systems.

3. REQUIREMENTS

- a. All diagnostic media is scanned for malware before use on any CUI system.
- b. Scanning is performed on a quarantine system not connected to the CUI network.
- c. Vendor-provided diagnostic media is treated as untrusted until scanned and cleared.
- d. Scan results are documented before media is connected to CUI systems.
- e. Media that fails scanning is quarantined and reported to Victor Osei.

4. RESPONSIBILITY

Nathan Cruz, IT Manager, scans and documents all diagnostic media before use.

5. ENFORCEMENT

Unscanned media on CUI systems is a security violation requiring immediate investigation.

Signed: Victor Osei, Director of Operations | Blue Ridge Technology Solutions LLC | 2026-01-15
