

■MAINTENANCE POLICY

Organization: Blue Ridge Technology Solutions LLC

Control: 3.7.6 - Maintenance Personnel Supervision

Version: 1.2 | Effective: 2026-01-15

Owner: Nathan Cruz, IT Manager | Approved: Victor Osei, Director of Operations

1. PURPOSE

This policy requires Blue Ridge Technology Solutions LLC to supervise maintenance activities of personnel without required access authorization, per NIST SP 800-171 Rev. 2 control 3.7.6.

2. SCOPE

All maintenance personnel who do not have CUI access authorization but require physical or logical access to perform maintenance.

3. REQUIREMENTS

- a. Unauthorized maintenance personnel are supervised by Nathan Cruz at all times.
- b. Supervision includes monitoring all activities within CUI areas.
- c. Supervised personnel may not be left unattended with CUI systems.
- d. If supervision is not possible, CUI systems are powered off and locked before maintenance begins.
- e. Supervision activities are documented in the maintenance log.

4. RESPONSIBILITY

Nathan Cruz, IT Manager, is responsible for supervising all unauthorized maintenance personnel.

5. ENFORCEMENT

Unattended unauthorized maintenance in CUI areas is a security incident.
