=====

1. PURPOSE

This policy requires that media containing CUI is marked with appropriate CUI markings and distribution limitations.

2. MARKING REQUIREMENTS

2.1 Paper Documents

- Every page of a paper document containing CUI must be marked at the top and bottom: "CUI"
- The cover page must also include the applicable CUI category (e.g., CUI // OPSEC, CUI // PRVCY)
- Distribution limitation: "DISTRIBUTION LIMITED TO AUTHORIZED PERSONNEL ONLY"

2.2 Electronic Files

- Documents in Word, Excel, PDF containing CUI must include a "CUI" header in the document header/footer
- SharePoint CUI site has a default sensitivity label "CUI - Confidential" applied to all content
- Files emailed externally must include "CUI" in the email subject line and body

2.3 Physical Media (USB drives, hard drives)

- CUI-containing USB drives must have a physical label affixed: "CUI - HANDLE PER DFARS 252.204-7012"
- Labels are orange (BRTS standard) to visually distinguish CUI media from non-CUI media

2.4 Exclusion

- Encrypted drives with ONLY operating system files (no CUI data) do not require CUI markings
- Media that has been sanitized of all CUI no longer requires markings

3. TRAINING

Staff are trained annually on CUI marking requirements.
