

■ MEDIA PROTECTION POLICY

Organization: Blue Ridge Technology Solutions LLC

Control: 3.8.6 - CUI Encryption in Transit

Version: 1.2 | Effective: 2026-01-15

Owner: Nathan Cruz, IT Manager | Approved: Victor Osei, Director of Operations

1. PURPOSE

This policy requires Blue Ridge Technology Solutions LLC to implement cryptographic mechanisms to protect CUI during transmission, per NIST SP 800-171 Rev. 2 control 3.8.6.

2. SCOPE

All CUI transmitted electronically or physically by Blue Ridge Technology Solutions LLC.

3. REQUIREMENTS

- a. CUI transmitted over networks uses TLS 1.2 or higher encryption.
- b. CUI emailed externally uses S/MIME or is protected via encrypted secure file transfer.
- c. CUI on portable media uses hardware encryption (AES-256 minimum).
- d. Unencrypted transmission of CUI is prohibited.
- e. Nathan Cruz verifies transmission encryption controls quarterly.

4. RESPONSIBILITY

Nathan Cruz, IT Manager, configures and verifies encryption for all CUI transmission methods.

5. ENFORCEMENT

Unencrypted CUI transmission is a serious policy violation.
