

■ ACCESS CONTROL POLICY

Organization: Bumpass Fire & Rescue

Control: 3.1.16 - Wireless Access Authorization

Version: 1.2 | Effective: 2026-01-15

Owner: Mike Sadler, IT Coordinator | Approved: Randy Bowles, Fire Chief

1. PURPOSE

This policy requires Bumpass Fire & Rescue to authorize wireless access connections prior to allowing them, per NIST SP 800-171 Rev. 2 control 3.1.16.

2. SCOPE

All wireless access to Bumpass Fire & Rescue networks and systems that process or store CUI.

3. REQUIREMENTS

- a. Wireless access points are registered and approved by Mike Sadler before deployment.
- b. Only authorized devices may connect to the Bumpass Fire & Rescue CUI wireless network.
- c. MAC address filtering and 802.1X authentication are used for CUI network WiFi.
- d. Guest wireless networks are isolated from CUI systems.
- e. Unauthorized wireless access points (rogue APs) are detected and blocked.

4. RESPONSIBILITY

Mike Sadler, IT Coordinator, manages wireless infrastructure and authorization processes.

5. ENFORCEMENT

Unauthorized wireless access points must be removed within 2 hours of detection.
