BUMPASS FIRE & RESCUE
MOBILE DEVICE CONNECTION CONTROL POLICY

=====

Document ID: POL-AC-018
Version: 1.0
Effective Date: April 1, 2026
Review Date: April 1, 2027
Owner: Mike Sadler, IT Administrator
Approved By: Chief Randy Bowles

=====

1. PURPOSE

This policy controls the connection of mobile devices (smartphones, tablets, and personal laptops) to Bumpass Fire & Rescue networks and systems.

2. APPROVED MOBILE DEVICES

Only the following mobile devices are permitted to connect to BFR's corporate network or access BFR systems:

- Company-issued mobile devices enrolled in Intune MDM
- Currently issued: 4 department iPhones (dispatch and command)
- Personally owned devices: NOT permitted on corp network (BYOD is prohibited for CUI access)

3. ENROLLMENT REQUIREMENTS

All approved mobile devices must:

- Be enrolled in Microsoft Intune MDM
- Have a minimum 6-digit PIN or biometric lock
- Have the BFR Authenticator app installed (for MFA)
- Have automatic OS updates enabled
- Have data encryption enabled (enforced by Intune)

4. NETWORK SEGMENTATION

- Company iPhones connect to BFRD-Mobile SSID (separate VLAN)
- This VLAN has access to email (M365) and dispatch app only
- No access to file servers or CUI storage from mobile SSID

5. LOST/STOLEN DEVICES

Any lost or stolen device must be reported to Mike Sadler immediately. Intune remote wipe will be performed within 1 hour of notification.
