

■ ACCESS CONTROL POLICY

Organization: Bumpass Fire & Rescue

Control: 3.1.19 - CUI Encryption on Mobile Devices

Version: 1.2 | Effective: 2026-01-15

Owner: Mike Sadler, IT Coordinator | Approved: Randy Bowles, Fire Chief

1. PURPOSE

This policy requires Bumpass Fire & Rescue to encrypt CUI on mobile devices and mobile computing platforms, per NIST SP 800-171 Rev. 2 control 3.1.19.

2. SCOPE

All Bumpass Fire & Rescue mobile devices and portable computing platforms that store or transmit CUI.

3. REQUIREMENTS

- a. All mobile devices storing CUI must enable full-device encryption.
- b. Windows laptops use BitLocker with TPM (AES-256).
- c. iOS devices use hardware AES encryption (enabled by default with passcode).
- d. Android devices enable full-disk encryption.
- e. Encryption status is verified through Intune compliance reports.
- f. Non-encrypted devices are blocked from CUI access until remediated.

4. RESPONSIBILITY

Mike Sadler, IT Coordinator, enforces encryption requirements via Intune compliance policies.

5. ENFORCEMENT

Non-compliant unencrypted devices are quarantined from CUI access within 2 hours.
