BUMPASS FIRE & RESCUE  
TRANSACTION AND FUNCTION ACCESS CONTROL POLICY

=====

Document ID: POL-AC-002  
Version: 1.0  
Effective Date: March 1, 2026  
Review Date: March 1, 2027  
Owner: Mike Sadler, IT Administrator  
Approved By: Chief Randy Bowles

=====

#### 1. PURPOSE

This policy limits system access for Bumpass Fire & Rescue personnel to only the transactions and functions each user is authorized to perform based on their role.

#### 2. SCOPE

Applies to all information systems, CAD software, scheduling platforms, and CUI-handling applications used by BFR.

#### 3. ROLE-BASED FUNCTION RESTRICTIONS

##### 3.1 Firefighter/EMT Personnel

Permitted Functions:

- View and update own training records
- View incident reports assigned to their crew
- Submit after-action reports (create only, no edit/delete)
- Access personnel calendar and scheduling

Prohibited Functions:

- Access payroll or HR records of others
- Modify dispatch logs
- Access federal contract CUI folders
- Install software on department computers

##### 3.2 Dispatch/Admin Staff

Permitted Functions:

- Create, modify, and close dispatch records
- Schedule personnel and manage calendars
- Access general department communications

Prohibited Functions:

- Access incident investigation reports
- Modify financial records without supervisor approval
- Access contract CUI without explicit authorization

##### 3.3 IT Administrator

Permitted Functions:

- Full system administration
- User account creation and modification
- Security configuration changes

Required: All privileged actions logged and reviewed monthly

##### 3.4 Chief / Command Staff

Permitted Functions:

- Read access to all operational records
- Approve/deny access requests
- Review audit logs

#### 4. ENFORCEMENT

Access is enforced through Active Directory group membership. Unauthorized function execution attempts are logged.

Violations are subject to disciplinary action.
