

## ■ACCESS CONTROL IMPLEMENTATION EVIDENCE

Organization: Bumpass Fire & Rescue

Control: 3.1.4 - Separation of Duties

Prepared By: Mike Sadler, IT Coordinator | Date: 2026-07-10

### 1. SUMMARY

Evidence that Bumpass Fire & Rescue separates duties to reduce insider risk for CUI system operations.

### 2. ROLE SEPARATION MATRIX

Function | Requester | Approver | Implementer

New CUI account | Department Head | Randy Bowles | Mike Sadler

Privileged access grant | Mike Sadler | Randy Bowles | Mike Sadler

CUI data deletion | Mike Sadler | Randy Bowles | Dual sign-off

Azure AD Roles: Mike Sadler holds Global Admin; Randy Bowles holds Security Reader (read-only audit access).

No single user holds both Global Admin and Billing Admin roles.

### 3. AUDIT LOG INDEPENDENCE

Microsoft Sentinel audit logs: Read access limited to Randy Bowles and external assessor accounts.

Mike Sadler cannot modify or delete audit log data.

### 4. SYSTEM DETAILS

Primary Workstation: BFR-WS-001 | User: m.sadler@bumpassfire.org

### 5. CONCLUSION

Bumpass Fire & Rescue enforces separation of duties across critical CUI functions per control 3.1.4.

Verified: Randy Bowles, Fire Chief | Bumpass Fire & Rescue | 2026-07-10
