BUMPASS VOLUNTEER FIRE & RESCUE DEPARTMENT
SYSTEM SECURITY PLAN (SSP)

=====

SSP Version: 2.1
Approval Date: March 1, 2026
Next Review: March 1, 2027
Classification: CUI – Law Enforcement Sensitive
Approved By: Raymond Stubbs, Fire Chief
Prepared By: Derek Holt, IT Coordinator

=====

SECTION 1 – SYSTEM IDENTIFICATION

System Name: Bumpass Fire & Rescue IT Environment
System Owner: Raymond Stubbs, Fire Chief
System Custodian: Derek Holt, IT Coordinator
Operating Status: Operational
Authorization Date: March 1, 2026

SECTION 2 – SYSTEM DESCRIPTION

Bumpass Fire & Rescue operates a small-scale IT environment supporting emergency dispatch, personnel records, and federal grant administration. CUI handled includes federal grant recipient data, personnel background check results, and DHS/FEMA program records.

Primary components:

- 1x Windows Server 2022 (file server + domain controller)
- 7x Windows 11 workstations
- CAD software: ESO Fire (cloud-hosted, vendor-managed)
- Microsoft 365 Business Premium (email, SharePoint, Teams)
- Meraki MX67 Firewall/VPN
- Grant Portal: FEMA Grants Outcomes (GO) – web browser access

SECTION 3 – SYSTEM BOUNDARY

In-scope systems: All systems listed in Section 2
Out of scope: Personal devices not enrolled in MDM
External connections: FEMA GO portal (HTTPS only), ESO Fire (HTTPS)
Network: 192.168.50.0/24 (internal LAN), VPN (10.10.1.0/24)

SECTION 4 – NIST SP 800-171 IMPLEMENTATION STATUS

Control Description (abbreviated) Status Responsible

3.1.1 Limit access to authorized users IMPLEMENTED Derek Holt
3.1.5 Least privilege IMPLEMENTED Derek Holt
3.2.1 Security awareness training IMPLEMENTED Raymond Stubbs
3.3.1 Audit logging IMPLEMENTED Derek Holt
3.4.1 Configuration management IMPLEMENTED Derek Holt
3.5.3 MFA IMPLEMENTED Derek Holt
3.6.1 Incident response IMPLEMENTED Raymond Stubbs
3.7.1 Maintenance IMPLEMENTED Derek Holt
3.8.1 Media protection IMPLEMENTED Derek Holt
3.9.1 Personnel screening IMPLEMENTED Raymond Stubbs
3.10.1 Physical access control IMPLEMENTED Raymond Stubbs
3.11.1 Risk assessment IMPLEMENTED Derek Holt
3.11.2 Vulnerability scanning IMPLEMENTED Derek Holt
3.12.1 Security assessment IMPLEMENTED Derek Holt

3.12.4 System Security Plan IMPLEMENTED Derek Holt
3.13.1 Boundary protection IMPLEMENTED Derek Holt
3.13.8 Encryption in transit IMPLEMENTED Derek Holt
3.13.16 CUI at rest encryption IMPLEMENTED Derek Holt
3.14.1 Flaw remediation IMPLEMENTED Derek Holt
3.14.2 Malware protection IMPLEMENTED Derek Holt
3.5.11 Obscure auth feedback IMPLEMENTED Derek Holt
3.4.8 Application whitelisting PLANNED Derek Holt *

* 3.4.8 planned implementation by September 1, 2026.
See POA&M item POA-2026-003.

SECTION 5 – INTERCONNECTIONS

External System Connection Type CUI Shared? Agreement

FEMA GO Portal HTTPS/TLS 1.3 YES FEMA ISA 2025
ESO Fire (CAD) HTTPS/TLS 1.3 YES ESO BAA 2024
Microsoft 365 HTTPS/TLS 1.3 YES MS BAA 2023

SECTION 6 – DOCUMENT HISTORY

Version Date Author Changes

1.0 2024-03-01 Derek Holt Initial SSP
2.0 2025-03-01 Derek Holt Added CAD/ESO interconnection
2.1 2026-03-01 Derek Holt Updated MFA, added M365 details
