

■SYSTEM AND COMMUNICATIONS PROTECTION POLICY

Organization: Bumpass Fire & Rescue

Control: 3.13.1 - Network Boundary Protection

Version: 1.2 | Effective: 2026-01-15

Owner: Mike Sadler, IT Coordinator | Approved: Randy Bowles, Fire Chief

1. PURPOSE

This policy requires Bumpass Fire & Rescue to monitor, control, and protect communications at external and internal network boundaries, per NIST SP 800-171 Rev. 2 control 3.13.1.

2. SCOPE

All Bumpass Fire & Rescue network boundaries separating CUI systems from external networks.

3. REQUIREMENTS

- a. Firewalls protect all network boundaries between CUI systems and external networks.
- b. Intrusion Prevention System (IPS) monitors traffic at network boundaries.
- c. Traffic is logged and reviewed for anomalies.
- d. Default-deny rules are in place; only approved traffic is allowed.
- e. Firewall rules are reviewed quarterly.

4. RESPONSIBILITY

Mike Sadler, IT Coordinator, manages all boundary protection devices and configurations.

5. ENFORCEMENT

Unauthorized network boundary changes are security incidents requiring immediate investigation.
