

■SYSTEM AND COMMUNICATIONS PROTECTION POLICY

Organization: Bumpass Fire & Rescue

Control: 3.13.2 - Security Architecture

Version: 1.2 | Effective: 2026-01-15

Owner: Mike Sadler, IT Coordinator | Approved: Randy Bowles, Fire Chief

1. PURPOSE

This policy requires Bumpass Fire & Rescue to employ architectural designs, software development techniques, and systems engineering principles that promote security as part of the CUI environment, per NIST SP 800-171 Rev. 2 control 3.13.2.

2. SCOPE

All Bumpass Fire & Rescue system design decisions affecting CUI systems.

3. REQUIREMENTS

- a. CUI systems follow a defense-in-depth architecture.
- b. Security is considered from the initial design phase of any new system.
- c. The CUI environment architecture is documented and maintained.
- d. Vendor solutions are evaluated for security before deployment.
- e. Security architecture is reviewed annually or after significant changes.

4. RESPONSIBILITY

Mike Sadler, IT Coordinator, designs and documents CUI system architecture with security as a core principle.

5. ENFORCEMENT

New systems without security architecture review may not process CUI.
