

■SYSTEM AND COMMUNICATIONS PROTECTION POLICY

Organization: Bumpass Fire & Rescue

Control: 3.13.6 - Default-Deny Network Communications

Version: 1.2 | Effective: 2026-01-15

Owner: Mike Sadler, IT Coordinator | Approved: Randy Bowles, Fire Chief

1. PURPOSE

This policy requires Bumpass Fire & Rescue to deny network communications traffic by default and allow only by exception, per NIST SP 800-171 Rev. 2 control 3.13.6.

2. SCOPE

All Bumpass Fire & Rescue firewall and network access control configurations.

3. REQUIREMENTS

- a. All firewall and network ACL default rules are DENY ALL.
- b. Specific allow rules must be documented and approved before implementation.
- c. Allow exceptions are reviewed quarterly and removed when no longer needed.
- d. Mike Sadler can demonstrate default-deny posture through firewall rule listing.
- e. Any traffic not matching an explicit allow rule is blocked and logged.

4. RESPONSIBILITY

Mike Sadler, IT Coordinator, configures and maintains default-deny network posture.

5. ENFORCEMENT

Any firewall configuration allowing traffic by default is a critical finding.
