USER BEHAVIOR ANALYTICS - JULY 2026

UEBA Anomalies detected: 3

- All 3 investigated
- 3 confirmed false positives (legitimate after-hours work)
- 0 confirmed unauthorized use

ANOMALY DETAILS

Event 1 (July 8, 2026)
Type: After-hours access + data access
User: kNguyen (Dispatcher)
Details: Login at 11:45 PM, accessed dispatch records
Investigation: Kim Nguyen confirmed she was covering a late shift for a sick colleague. Authorized. Documented in shift log.
Result: FALSE POSITIVE - Closed.

Event 2 (July 16, 2026)
Type: Access to data outside normal role pattern
User: apiece (Aaron Pierce - Firefighter)
Details: Accessed a shared drive folder (Admin-Budget) not previously in his access history
Investigation: Aaron stated he needed a contact list from the folder.
Review: He had READ access (correct per AD group) but had never accessed it before. No CUI in that folder.
Result: FALSE POSITIVE - Normal curiosity access. No policy violation.
Reviewed: His access level is still appropriate.

Event 3 (July 22, 2026)
Type: Simultaneous logins from two IPs
User: msadler (Mike Sadler)
Details: Login from office IP and VPN IP at same time
Investigation: Mike Sadler was at office with direct connection AND had VPN open to test a configuration. Legitimate.
Result: FALSE POSITIVE - Closed.

DISABLED ACCOUNT ATTEMPTS: 0 (no former employee login attempts)
SERVICE ACCOUNT INTERACTIVE LOGINS: 0 (all blocked by GPO)
UNAPPROVED SOFTWARE DETECTED: 1 (July 24 - see CM monitoring)

SOFTWARE INVENTORY REVIEW (July 2026)

Devices scanned: 6
Unapproved software found: 1 item (BFR-WS-002 - rThomas)
App: TeamViewer Host (unauthorized remote access tool)
Action: Removed immediately by Mike Sadler 07/24/2026
User counseled. No external connections made (log checked).
