BUMPASS FIRE & RESCUE
SECURITY CONFIGURATION BASELINE POLICY

=====

Document ID: POL-CM-002
Version: 1.0
Effective Date: April 5, 2026
Review Date: April 5, 2027
Owner: Mike Sadler, IT Administrator
Approved By: Chief Randy Bowles

=====

1. PURPOSE

This policy establishes and enforces security configuration settings for all BFR information systems.

2. CONFIGURATION BASELINES

2.1 Windows Workstations (Baseline: CIS Benchmark L1)

Key settings enforced via GPO:

- Windows Defender enabled, tamper protection ON
- Firewall enabled (all profiles)
- AutoPlay disabled for all media
- SMBv1 disabled
- Remote Registry: Disabled
- Guest account: Disabled
- Screensaver timeout: 15 minutes (password required)
- USB storage: Blocked (except approved devices)

2.2 Servers (Baseline: CIS Benchmark L2)

Additional hardening:

- RDP access: via VPN only (no external exposure)
- Windows Remote Management (WinRM): HTTPS only
- NetBIOS over TCP/IP: Disabled
- LLMNR: Disabled

2.3 Mobile Devices (Baseline: CIS iOS Benchmark L1)

Enforced via Intune:

- PIN/biometric required
- Encryption enabled
- Auto-lock: 2 minutes
- Jailbreak detection: block access if detected

3. ENFORCEMENT

Baselines are enforced through Group Policy Objects and Microsoft Intune Configuration Profiles. Drift from baseline generates a Sentinel alert.

4. REVIEW

Baselines are reviewed annually and after significant vulnerability disclosures affecting baseline controls.
