

■IDENTIFICATION AND AUTHENTICATION IMPLEMENTATION EVIDENCE

Organization: Bumpass Fire & Rescue

Control: 3.5.8 - Password Reuse Prohibition

Prepared By: Mike Sadler, IT Coordinator | Date: 2026-07-10

1. SUMMARY

Evidence that Bumpass Fire & Rescue prohibits password reuse for the previous 24 password generations.

2. PASSWORD HISTORY CONFIGURATION

Platform: Azure AD + GPO (tenant: bumpassfire.org)

Azure AD:

- Password history: 24 passwords enforced
- This is the Microsoft 365 / Azure AD default minimum applied without exception

GPO (Hybrid AD):

Policy: PasswordHistory-Bumpass Fire & Rescue

- Enforce password history: 24 passwords remembered
- Minimum password age: 1 day (prevents cycling through 24 passwords to reuse old one)

3. PASSWORD HISTORY TEST

Date: 2026-06-15 | Tester: Mike Sadler

Method: Attempt to reuse a previously used password on test account (password #3 in history)

Result: REJECTED - "You cannot use a password that you have already used." PASS.

4. SERVICE ACCOUNT ROTATION

Service Account: svc-backup@bumpassfire.org

Rotation Schedule: Every 90 days (automated via Azure AD)

Password History Maintained: Yes (24 generations)

Last Rotation: 2026-06-15 | Next Due: 2026-09-13

5. CONCLUSION

Bumpass Fire & Rescue enforces prohibition of password reuse for 24 generations via Azure AD and GPO per control 3.5.8.
