

■ INCIDENT RESPONSE IMPLEMENTATION EVIDENCE

Organization: Bumpass Fire & Rescue

Control: 3.6.3 - Incident Response Testing

Prepared By: Mike Sadler, IT Coordinator | Date: 2026-07-10

1. SUMMARY

Evidence that Bumpass Fire & Rescue tests its incident response capability annually.

2. TABLETOP EXERCISE REPORT

Exercise Date: 2026-04-15

Facilitator: Mike Sadler

Participants: Randy Bowles (Fire Chief), Mike Sadler (IT Coordinator), Staff-1

Duration: 2 hours

Scenario:

"A Bumpass Fire & Rescue employee receives a spear-phishing email impersonating the DoD contracting officer.

The employee clicks the link, enters credentials on a fake portal, and unknowingly grants an attacker access to their Microsoft 365 account."

3. EXERCISE WALKTHROUGH RESULTS

Phase | Action Taken | Pass/Fail

Detection | Sentinel alert fired on suspicious login | Pass

Containment | Account disabled within 15 minutes | Pass

Communication | Randy Bowles notified within 30 minutes | Pass

Evidence Collection | Logs exported from Sentinel | Pass

Eradication | Password reset, MFA re-enrolled | Pass

US-CERT Reporting | Criteria evaluated - not required | Pass (no CUI exfil confirmed)

Recovery | Account restored, monitoring enhanced | Pass

4. GAPS IDENTIFIED

Gap 1: No out-of-band contact method if email system compromised

Remediation: Cell phone list added to IRP | Completed: 2026-05-01 | Owner: Mike Sadler

5. CONCLUSION

Bumpass Fire & Rescue completed annual IR tabletop exercise with documented results and gap remediation per control 3.6.3.
