

■MAINTENANCE POLICY

Organization: Bumpass Fire & Rescue

Control: 3.7.3 - Equipment Sanitization

Version: 1.2 | Effective: 2026-01-15

Owner: Mike Sadler, IT Coordinator | Approved: Randy Bowles, Fire Chief

1. PURPOSE

This policy requires Bumpass Fire & Rescue to ensure that equipment removed for off-site maintenance is sanitized before release, per NIST SP 800-171 Rev. 2 control 3.7.3.

2. SCOPE

All Bumpass Fire & Rescue CUI system equipment that is removed from the facility for repair or maintenance.

3. REQUIREMENTS

- a. All CUI data is removed from equipment before it leaves Bumpass Fire & Rescue custody.
- b. If data cannot be removed, the equipment is escorted and not left unattended.
- c. Sanitization follows NIST SP 800-88 Guidelines for Media Sanitization.
- d. Sanitization is documented in the equipment maintenance log.
- e. Equipment returning from off-site maintenance is inspected and re-scanned before reconnection.

4. RESPONSIBILITY

Mike Sadler, IT Coordinator, performs or verifies equipment sanitization before off-site release.

5. ENFORCEMENT

Equipment leaving the facility with CUI without sanitization is a security incident.
