

## ■MAINTENANCE IMPLEMENTATION EVIDENCE

Organization: Bumpass Fire & Rescue

Control: 3.7.6 - Maintenance Personnel Supervision

Prepared By: Mike Sadler, IT Coordinator | Date: 2026-07-10

### 1. SUMMARY

Evidence that Bumpass Fire & Rescue supervises maintenance personnel who lack CUI access authorization.

### 2. SUPERVISION PROTOCOL

Step 1: Mike Sadler escorts maintenance personnel to work area

Step 2: CUI-sensitive systems are locked or screens faced away during maintenance

Step 3: Mike Sadler remains in the same room throughout the maintenance activity

Step 4: Mike Sadler verifies all tools and materials brought in and taken out

Step 5: Post-maintenance: Mike Sadler inspects area before maintenance personnel leave

### 3. MAINTENANCE SUPERVISION LOG (FY2026)

Date | Vendor | Scope | Supervised By | Unattended? | Notes

2026-03-10 | Network-A | Switch maint | Mike Sadler | No | Full escort

2026-05-20 | HP Support | Laptop repair | Mike Sadler | No | CUI screen covered

2026-06-05 | ISP Tech | Fiber repair | Mike Sadler | No | Restricted to comms closet (no CUI)

### 4. SYSTEM LOCKOUT PROCEDURE (when escort not possible)

If Mike Sadler must leave area: All CUI systems shut down or screens locked + privacy filter on.

This situation has not arisen in FY2026 - Mike Sadler maintained constant supervision.

### 5. SECURITY CAMERA COVERAGE

Office area with CUI systems is covered by security camera.

Footage retained 30 days. Reviewed by Mike Sadler after each maintenance visit for anomalies.

### 6. CONCLUSION

Bumpass Fire & Rescue maintains constant supervision of all unauthorized maintenance personnel per control 3.7.6.
