

■ MEDIA PROTECTION IMPLEMENTATION EVIDENCE

Organization: Bumpass Fire & Rescue

Control: 3.8.5 - Media Transport Controls

Prepared By: Mike Sadler, IT Coordinator | Date: 2026-07-10

1. SUMMARY

Evidence that Bumpass Fire & Rescue controls the transport of CUI media outside secure areas.

2. TRANSPORT AUTHORIZATION PROCESS

Step 1: Requestor submits transport request to Mike Sadler (email or ticket)

Step 2: Mike Sadler verifies media encryption status

Step 3: Randy Bowles approves transport request

Step 4: Transporter signs out media in transport log

Step 5: Transporter returns media and signs back in

3. MEDIA TRANSPORT LOG (FY2026)

Date | Media | Transported By | Destination | Purpose | Approved | Return Date

2026-03-12 | USB KI-001 | Mike Sadler | DoD Contractor mtg | Contract docs | Randy Bowles | 2026-03-12

2026-06-05 | USB KI-001 | Randy Bowles | Client meeting | Deliverables | Mike Sadler | 2026-06-05

Transport outside office: 2 events. Media encrypted in both cases. Kept in hand carry.

4. ENCRYPTION VERIFICATION (Pre-Transport)

Before each transport, Mike Sadler verifies:

- USB drive encryption active (hardware IronKey status indicator: LOCKED)
- Files accessible only with PIN

5. LOST/STOLEN MEDIA INCIDENTS

FY2026: 0 incidents

6. CONCLUSION

Bumpass Fire & Rescue controls CUI media transport with documented approval and encryption verification per control 3.8.5.

Verified: Randy Bowles, Fire Chief | Bumpass Fire & Rescue | 2026-07-10
