

■ MEDIA PROTECTION IMPLEMENTATION EVIDENCE

Organization: Bumpass Fire & Rescue

Control: 3.8.8 - Unowned Portable Storage Prohibition

Prepared By: Mike Sadler, IT Coordinator | Date: 2026-07-10

1. SUMMARY

Evidence that Bumpass Fire & Rescue prohibits use of portable storage without an identifiable owner.

2. TECHNICAL CONTROLS

Intune Device Control Policy: USBDeviceControl-Bumpass Fire & Rescue

- Only allowlisted devices (by hardware ID and serial number) may connect
- Each allowlisted device has a documented owner in the Approved Media Register
- Devices without registered owner: BLOCKED

This ensures no ownerless device can be used on CUI endpoints, even if someone attempts to connect one.

3. APPROVED MEDIA REGISTER (Owner Documentation)

Device | Owner | Contact | Registered

KI-001 (32GB) | Mike Sadler | Mike Sadler@bumpassfire.org | 2026-01-15

KI-002 (32GB) | Randy Bowles | Randy Bowles@bumpassfire.org | 2026-01-15

ITBK-001 | Mike Sadler | Mike Sadler@bumpassfire.org | 2026-01-20

No unowned devices registered: All entries have named owners.

4. FOUND DEVICE PROCEDURE

FY2026 incident: 2026-05-10 - USB drive found in conference room (not from approved list)

Action by Mike Sadler: Device quarantined (not connected to any Bumpass Fire & Rescue system).

Announced via email.

Unclaimed after 5 days: Scanned on quarantine laptop, then physically destroyed.

5. TRAINING

Annual training includes: "Do not plug in found USB drives - bring to Mike Sadler"

Covered in KnowBe4 security awareness module.

6. CONCLUSION

Bumpass Fire & Rescue prohibits unowned portable storage via Intune controls and maintains an owner-linked media register per control 3.8.8.
