KEITH THE DRONE GUY LLC
RISK ASSESSMENT POLICY

=====

Document ID: POL-RA-001
Version: 1.0
Effective Date: March 5, 2026
Review Date: March 5, 2027
Owner: Keith Merritt, Owner/IT Lead
Approved By: Keith Merritt, Owner

=====

1. PURPOSE

This policy requires periodic risk assessments of KDG organizational operations, assets, and personnel to identify and respond to information security risks.

2. RISK ASSESSMENT FREQUENCY

- Formal risk assessment: annually (each March)
- Ad-hoc assessment: after any significant incident, major infrastructure change, or new CUI contract award

3. RISK ASSESSMENT SCOPE

Each assessment covers:

- All systems that store, process, or transmit CUI
- Personnel with access to CUI systems
- Physical facilities housing CUI systems
- Third-party connections and service providers

4. RISK ASSESSMENT METHODOLOGY

KDG uses a simplified risk framework based on NIST SP 800-30:

- Step 1: Identify threat sources and threat events
- Step 2: Determine likelihood of each threat event
- Step 3: Determine impact of each threat event
- Step 4: Calculate risk = Likelihood x Impact
- Step 5: Prioritize risks and identify mitigations
- Step 6: Document in Risk Register

5. RISK REGISTER

Risks are tracked in the KDG Risk Register
(SharePoint: IT/Risk-Register.xlsx).

Each risk includes: description, likelihood, impact, risk level, owner, mitigation, and target resolution date.

6. REVIEW AND ACCEPTANCE

Keith Merritt reviews and accepts the risk register annually.
Risks rated HIGH require mitigation plan within 30 days.
