1. PURPOSE

This policy requires KDG to monitor security alerts and advisories from authoritative sources and take appropriate action in response.

2. ALERT SOURCES MONITORED

The following sources are monitored for security alerts:

- a) CISA (cisa.gov) - Known Exploited Vulnerabilities (KEV) and advisories (email subscription + weekly check)
- b) Microsoft Security Response Center (MSRC) security update guide - checked each Patch Tuesday
- c) Microsoft Defender portal - real-time endpoint alerts
- d) Microsoft Sentinel - SIEM alerts (real-time)
- e) US-CERT (alerts.us-cert.cisa.gov) - email subscription
- f) Cisco Meraki - device security advisories (dashboard)

3. RESPONSE PROCESS

Upon receiving a security alert:

- a) Keith Merritt assesses applicability to KDG environment
- b) If applicable: determines severity and action required
- c) Critical/High (in CISA KEV): patch within 72 hours
- d) All others: follow standard patching timeline
- e) Alert and response documented in IT log

4. AUTOMATED ALERTS

Microsoft Sentinel and Defender send real-time email and Teams channel alerts to Keith Merritt.
Keith Merritt reviews alerts within 4 hours during business hours and within 24 hours on weekends.
