KEITH THE DRONE GUY LLC
SYSTEM CHANGE CONTROL POLICY

=====

Document ID: POL-CM-003
Version: 1.0
Effective Date: February 20, 2026
Review Date: February 20, 2027
Owner: Keith Merritt, Owner/IT Lead
Approved By: Keith Merritt, Owner

=====

1. PURPOSE

This policy establishes a change control process to track, review, approve, and log changes to KDG information systems.

2. SCOPE

Applies to all changes to hardware, software, configuration, and network infrastructure that may affect security or CUI.

3. CHANGE TYPES

3.1 Standard Changes (pre-approved)

Low-risk, repeatable changes with defined procedures:

- Monthly Windows patching (second Tuesday of month)
- Antivirus signature updates (automatic)
- User password resets

Standard changes do not require individual approval but are still logged.

3.2 Normal Changes (require review)

Any change to system configuration, new software installation, firewall rule changes, user permission changes, or infrastructure modifications. Process:

- Submit Change Request via IT ticketing system
- Review by Keith Merritt (technical impact assessment)
- Approval (self-approval for routine; Dana Flowers approval required if Keith is implementing)
- Schedule and implement
- Close ticket with outcome documented

3.3 Emergency Changes

Changes to resolve active P1 incidents:

- Implemented immediately
- Documented in ticket within 2 hours
- Reviewed and formally approved post-implementation

4. CHANGE LOG

All changes logged in IT ticketing system with:
date, requester, description, approver, outcome.
Retained 3 years.
