

■CONFIGURATION MANAGEMENT POLICY

Organization: Keith the Drone Guy LLC

Control: 3.4.5 - Access Restrictions for Configuration Changes

Version: 1.2 | Effective: 2026-01-15

Owner: Keith Merritt, Owner-Operator | Approved: Keith Merritt, Owner-Operator

1. PURPOSE

This policy defines and enforces access restrictions associated with Keith the Drone Guy LLC configuration changes, per NIST SP 800-171 Rev. 2 control 3.4.5.

2. SCOPE

All Keith the Drone Guy LLC CUI systems and their configuration management functions.

3. REQUIREMENTS

- a. Only Keith Merritt is authorized to implement configuration changes on CUI systems.
- b. Physical access to server rooms and network equipment requires key card authorization.
- c. Remote configuration changes require VPN and MFA authentication.
- d. Configuration management tools are accessible only to Keith Merritt.
- e. Attempts by unauthorized users to make configuration changes are detected and alerted.

4. RESPONSIBILITY

Keith Merritt, Owner-Operator, implements and enforces access restrictions for system configuration.

5. ENFORCEMENT

Unauthorized configuration changes are treated as security incidents.
