

■CONFIGURATION MANAGEMENT IMPLEMENTATION EVIDENCE

Organization: Keith the Drone Guy LLC

Control: 3.4.5 - Access Restrictions for Configuration Changes

Prepared By: Keith Merritt, Owner-Operator | Date: 2026-07-10

1. SUMMARY

Evidence that Keith the Drone Guy LLC enforces access restrictions for configuration changes to CUI systems.

2. PHYSICAL ACCESS RESTRICTIONS

Server Room / Network Closet:

- Location: Secured room with electronic keypad lock
- Authorized personnel: Keith Merritt only (key code known only to Keith Merritt and Keith Merritt for emergencies)
- Access log: Electronic access log reviewed monthly by Keith Merritt
- Visitor access: Requires Keith Merritt escort

Physical Access Log (June 2026):

Date | Time | User | Purpose

2026-06-03 | 09:15 | Keith Merritt | Switch firmware update

2026-06-15 | 14:30 | Keith Merritt | Cable management and inspection

3. LOGICAL ACCESS RESTRICTIONS

Intune Admin: Keith Merritt only (Global Admin, PIM-gated)

Azure AD: Keith Merritt only can modify device configurations

GPO: Keith Merritt only has GPO Edit permissions in AD

Sentinel: Keith Merritt has Contributor (config); Keith Merritt has Reader only

Conditional Access: Configuration console access blocked from non-compliant devices.

4. UNAUTHORIZED CHANGE DETECTION

Sentinel Rule: "UnauthorizedConfigChange" - alerts if non-Keith Merritt user makes Intune or Azure AD configuration changes.

Last triggered: Never (FY2026)

5. CONCLUSION

Keith the Drone Guy LLC enforces physical and logical access restrictions for configuration changes per control 3.4.5.
