

■IDENTIFICATION AND AUTHENTICATION IMPLEMENTATION EVIDENCE

Organization: Keith the Drone Guy LLC

Control: 3.5.9 - Temporary Password Management

Prepared By: Keith Merritt, Owner-Operator | Date: 2026-07-10

1. SUMMARY

Evidence that Keith the Drone Guy LLC requires immediate password change when temporary passwords are issued.

2. TEMPORARY PASSWORD PROCESS

Platform: Azure AD (tenant: keithdroney.com)

Temporary Password Configuration:

- "User must change password at next sign-in" enforced on all provisioned accounts
- Temporary password format: 20-character random (issued by Keith Merritt via Azure AD portal)
- Expiry: 24 hours (Conditional Access policy blocks login after 24h if not changed)

3. ISSUANCE LOG (FY2026)

Date | Account | Reason | Changed On | Changed By

2026-01-20 | staff1@keithdroney.com | New hire | 2026-01-20 | Staff-1

2026-01-22 | staff2@keithdroney.com | New hire | 2026-01-22 | Staff-2

2026-04-05 | Keith Merritt@keithdroney.com | Password reset (req) | 2026-04-05 | Keith Merritt

2026-06-18 | staff1@keithdroney.com | Forgotten password | 2026-06-18 | Staff-1

All temporary passwords changed on same day of issuance. No expired unused temps.

4. SECURE DELIVERY

Method: Keith Merritt communicates temp password via encrypted Teams message or in-person

No temp passwords sent via unencrypted email

5. CONCLUSION

Keith the Drone Guy LLC requires immediate password change on all temporary passwords per control 3.5.9.
