KEITH THE DRONE GUY LLC
REMOVABLE MEDIA USE CONTROL POLICY

=====

Document ID: POL-MP-007
Version: 1.0
Effective Date: March 20, 2026
Review Date: March 20, 2027
Owner: Keith Merritt, Owner/IT Lead
Approved By: Keith Merritt, Owner

=====

1. PURPOSE

This policy controls the use of removable media on KDG system components to prevent unauthorized data exfiltration and introduction of malware.

2. APPROVED REMOVABLE MEDIA

Only the following removable media may be used on KDG systems:

- KDG-issued Kingston IronKey USB drives (encrypted)
Currently: USB-001 (Keith), USB-002 (Dana)
- KDG-issued SD cards for drone data collection (KDG-SD-001 through KDG-SD-004) - scanned when brought inside

3. PROHIBITED MEDIA

- Personal USB flash drives: PROHIBITED
- Unknown/unidentified USB devices: PROHIBITED
- USB devices found in parking lots or common areas: PROHIBITED (potential BadUSB attack vector)
- CD/DVD drives: Not installed on any KDG system

4. TECHNICAL ENFORCEMENT

- Microsoft Defender Application Control policy restricts USB access (Device Control rules via Intune)
- Only approved device hardware IDs are whitelisted
- All other USB storage devices generate a blocked event

5. DRONE SD CARDS

- SD cards from drones are connected to the dedicated KDG-WS-001 (drone data workstation) only
- Defender scans SD card upon insertion automatically
- After data transfer, SD cards are formatted (no CUI stored)

6. VIOLATION

Inserting unauthorized removable media is a policy violation subject to disciplinary action.
