

## ■ MEDIA PROTECTION IMPLEMENTATION EVIDENCE

Organization: Keith the Drone Guy LLC

Control: 3.8.9 - CUI Backup Protection

Prepared By: Keith Merritt, Owner-Operator | Date: 2026-07-10

### 1. SUMMARY

Evidence that Keith the Drone Guy LLC protects the confidentiality of CUI in backup storage.

### 2. BACKUP ARCHITECTURE

Primary Backup: Microsoft 365 Backup (Exchange, SharePoint, OneDrive)

- Encryption: AES-256 at rest (Microsoft managed)
- Geo-redundancy: Active (LRS + GRS replication)
- Access: Keith Merritt only (Backup Admin role in M365)
- Retention: 30 days granular + 1 year archive

Secondary Backup: External encrypted HDD (KI-BACKUP-01)

- Encryption: VeraCrypt AES-256 + SHA-512
- Key stored: Azure Key Vault (access: Keith Merritt only)
- Physical location: Locked cabinet, Keith Merritt's office
- Backup frequency: Monthly full backup

### 3. BACKUP ENCRYPTION VERIFICATION

Date: 2026-06-30 | Verifier: Keith Merritt

M365 Backup: Microsoft Compliance Center confirms AES-256 at rest for all content

External HDD: VeraCrypt volume header verified. Decryption attempted with test key - successful.

### 4. ACCESS CONTROL

M365 Backup Admin: Keith Merritt only

External HDD: Physical key held by Keith Merritt; spare with Keith Merritt in sealed envelope (emergency)

Key Vault access: Keith Merritt only (Reader); audit log enabled

### 5. BACKUP RESTORATION TEST

Date: 2026-05-15 | Tester: Keith Merritt

Test: Restored 3 CUI documents from M365 Backup

Result: Successful restore. Data integrity verified. Encryption maintained post-restore.

### 6. CONCLUSION

Keith the Drone Guy LLC protects CUI backups with AES-256 encryption and access controls per control 3.8.9.
